

Dear Fire Fighter,

I would just like to thank you for saving our community. You do so much for our country; you save a numeral amount of strangers' lives. I just think that it is very brave and heroic of you to put our lives in front your own.

I know that some people look at you as just a guy that stops fires, but I look at you as hero. You have saved many lives; whether its 9/11 or just a regular day. No matter what, you have made an impact on our country.
